Summary

As a computer science student with a passion for software development, I am eager to take on new challenges and gain hands-on experience in a software engineering internship.

My skills in problem-solving, data structures, algorithms, software design patterns, and proficiency in various programming languages like Java, JavaScript, Python, HTML, MySQL, CSS, React, and Koltin make me a strong candidate. I'll be graduating from the University of Central Oklahoma in May 2024 with a Bachelor of Science in Computer Science. I'm excited to bring my skills and enthusiasm to the table and make a real impact in the field of software engineering.
